FOREWORD

Around our school, we have had many experiences, and we have made many friends that will linger always among our cherished memories. So that in years to come we might recall these memories associated with our school days at William Campbell, we, the members of the annual staff, have tried to present a true picture of our school life for the session 1959-1960.

We hope that you will enjoy reading and looking at the 1960 GENERAL as much as we have enjoyed preparing it.

WE DEDICATE

MRS ARLINE WHITLOW

Mrs. Whitlow points out various parts of a rabbit skeleton to Charles Toler and J. D. Puckette. The boys mounted the rabbit skeleton as their biology project.

We, the Senior Class of 1960, dedicate this edition of THE GENERAL to Mrs. Arline Whitlow, who has taught science at William Campbell since its beginning 9 years ago.

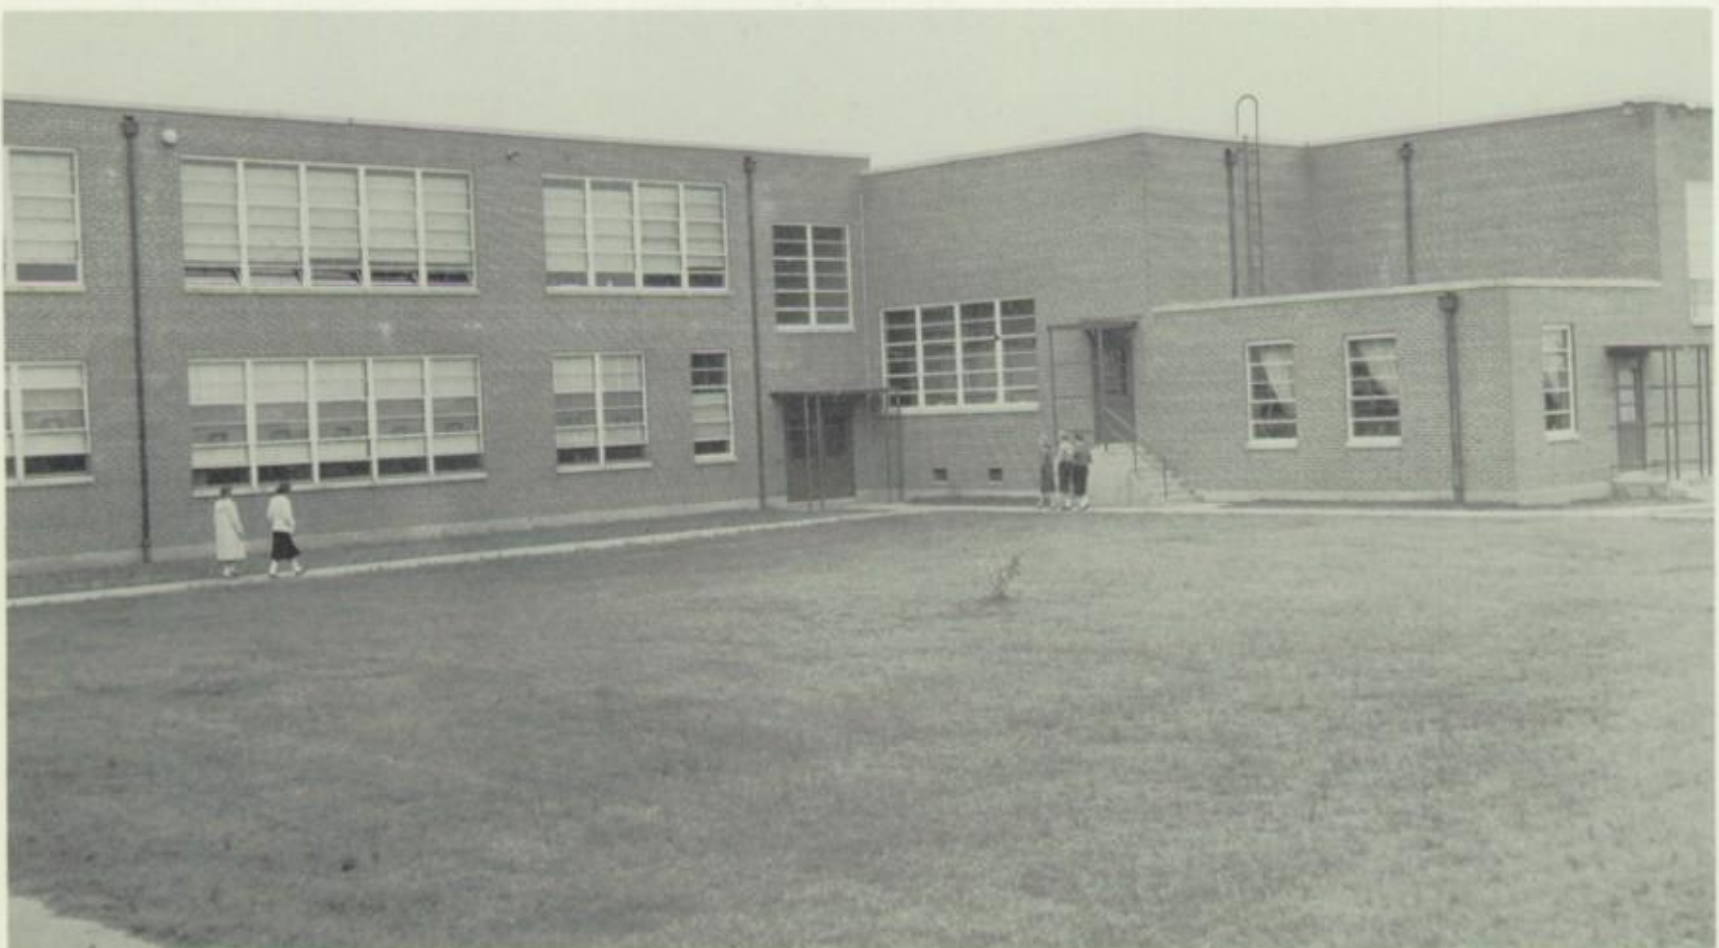

Because of her unlimited services in developing scientific interests in young people, her desire to instill high ideals in young people, and her thoughtfulness and understanding, Mrs. Whitlow is not only our teacher, but our true friend.

OUR SCHOOL

William Campbell High School is an accredited, five-year high school located at Naruna, on Highway 501, in Campbell County, Virginia. It was established in 1951 as a result of the consolidation of the high schools in Gladys, Naruna, and Brookneal, and the fifth year of high school was added in 1952. It is named for William Campbell, a General who distinguished himself because of his heroism in the battle at King's Mountain during the Revolutionary War. The basketball and baseball teams are known as the Generals.

The main building has 9 regular classrooms, 2 science laboratories, a typing room, art room, music room, projection room, home economics department, gymnasium, library, cafeteria, and offices. Plans have been approved for the addition of a new wing to the building. The Elementary school building is directly behind the High School building and is attended by children from Naruna. The Agriculture building is to the right of the main building and has a shop and several classrooms.

Mr. James E. Strickler is principal of William Campbell High School, and there are 20 other members of the high school faculty. The high school enrollment is 376.

MRS. CHRISTINE CRABTREE'S COOKING CLASS

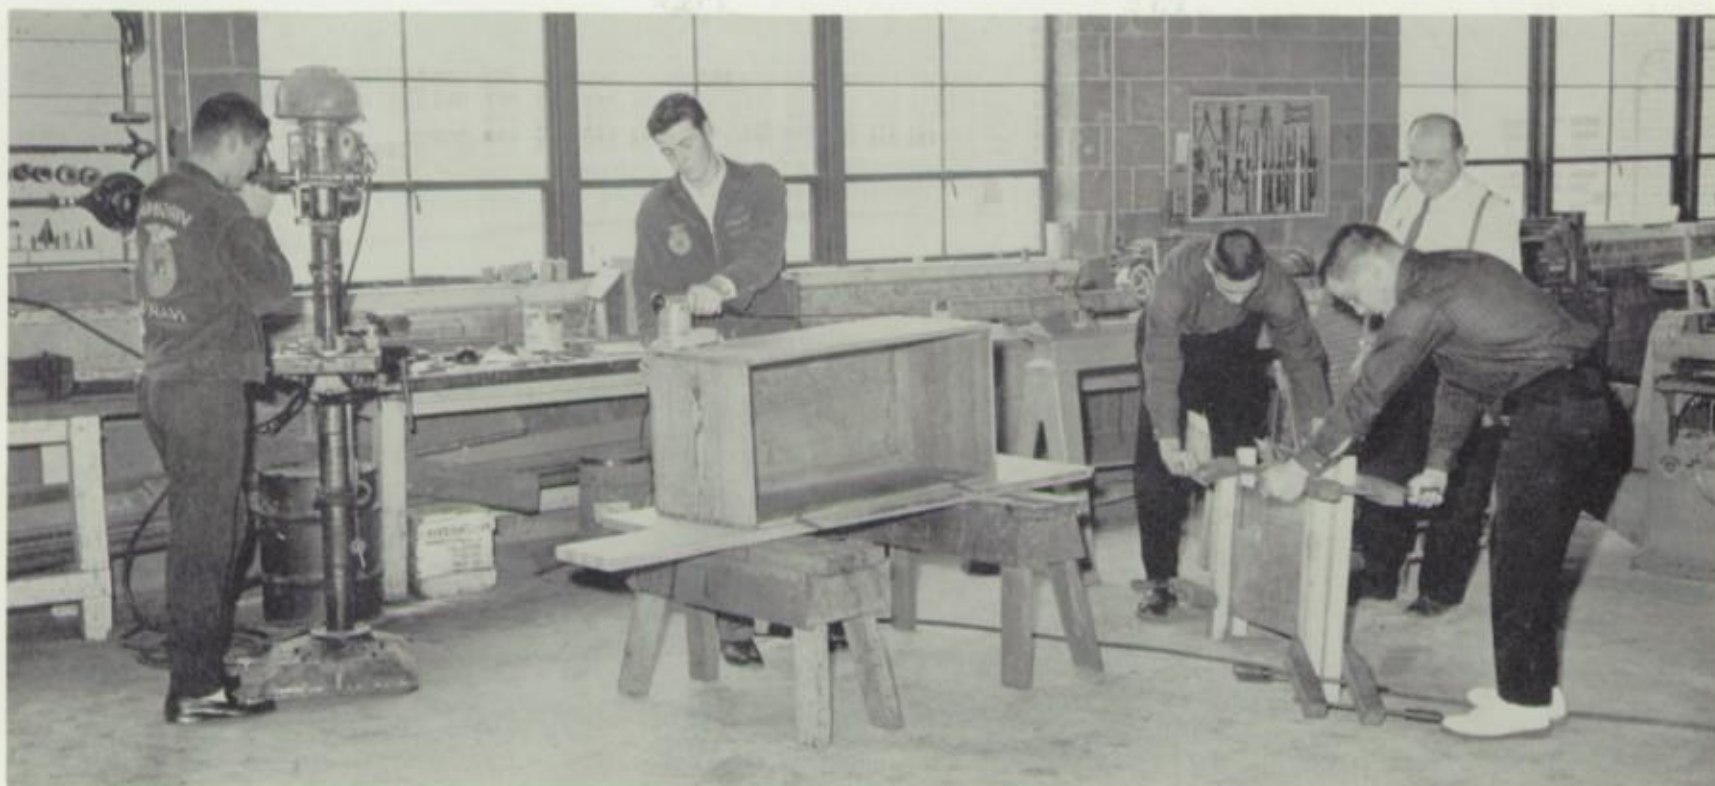

Tantalizing aromas drifting from the Home Ec. Department and girls wearing smart clothes are most often associated with our idea of Home Economics. Just as important, the girls study and carry out projects in home beautification, home safety, and good health in the home. In the present Home Economics program, the 122 girls now enrolled will be well prepared for the future.

-----CLASSES TRAIN FUTURE FARMERS

MR. J. J. RIEGEL'S SHOP CLASS

Vocational agriculture teaches farm boys how to farm scientifically, how to repair farm machinery, how to construct useful items in the shop, and how to use wisely the land or equipment he already has. The F.F.A. sponsors many contests which provide competition in subjects taught in class such as public speaking, crop judging, shop judging, and dairy judging.

MRS. ELSIE PAYNE GUTHRIE'S LATIN CLASS

LANGUAGES

Language classes help to promote a better world understanding. In Latin I and II, students learn to appreciate the Roman civilization; they learn many modern-day words derived from Latin.

In Spanish I, the students learn grammar and also the translation of selections dealing with the geography, life, and customs of the people.

MRS. MYRTLE FORE'S SPANISH CLASS

IT HAPPENED IN 1959-60...

MRS. BILLY FENIMORE'S HISTORY CLASS

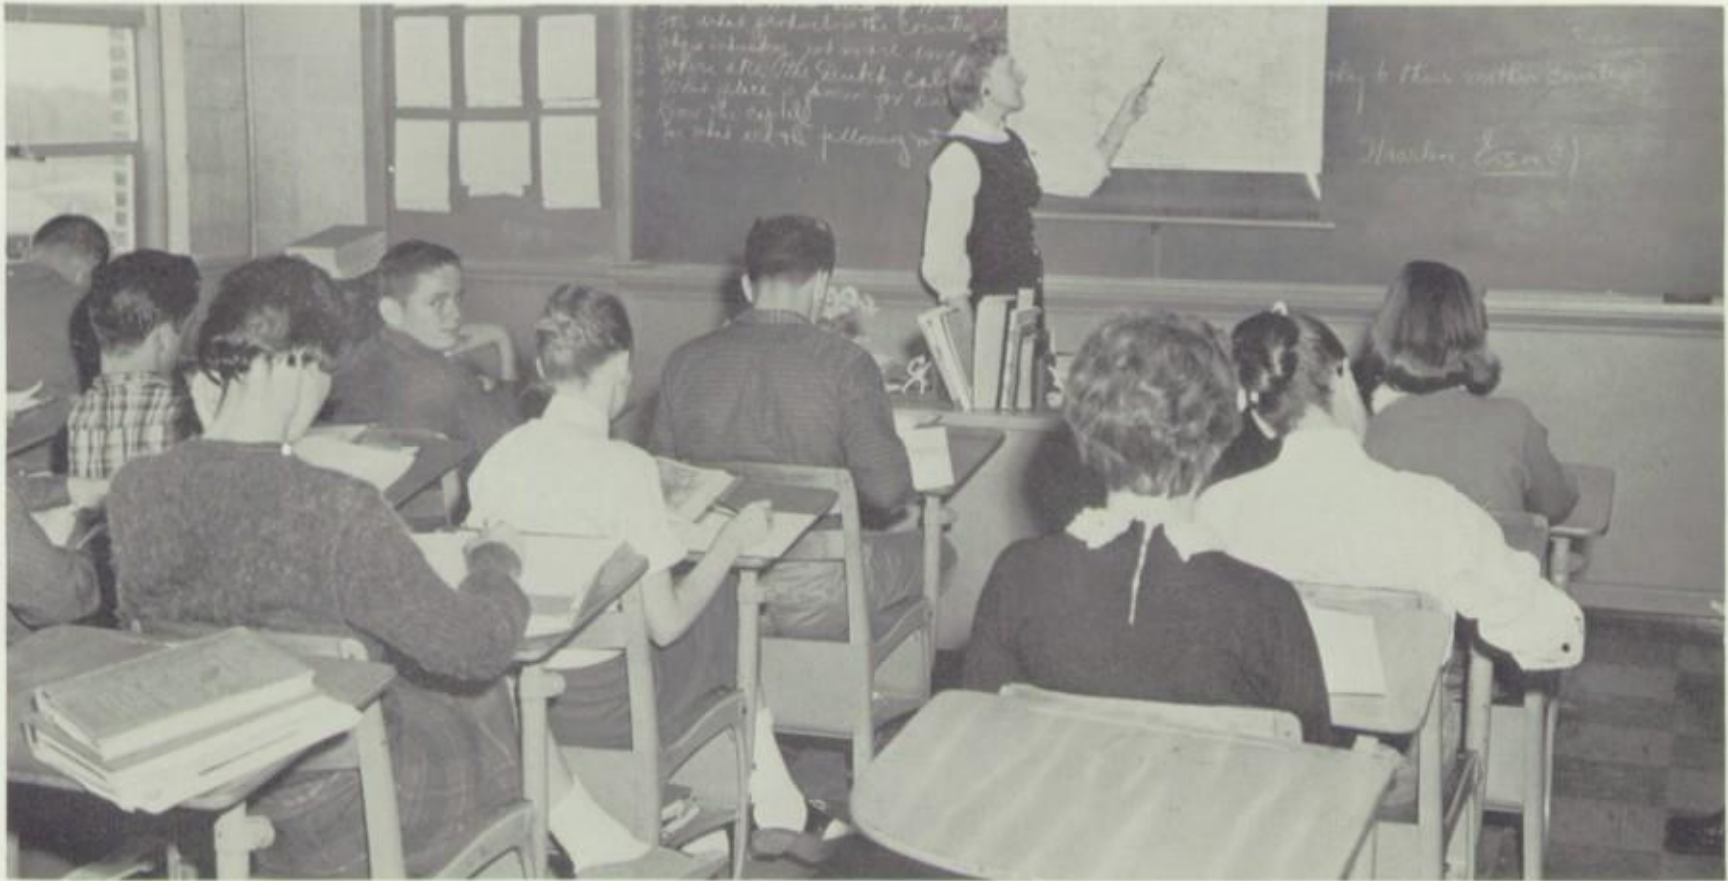

A knowledge of the past helps students better understand today's problems. Mrs. Billy Fenimore teaches 3 sections of American History and 2 sections of World History. Stimulating discussions on politics help government students become better citizens by understanding and appreciating their government. Mrs. Mary Maddox teaches the 2 government classes to seniors. There are 2 sections of eighth grade civics taught by Mrs. Myrtle Fore and 1 section taught by Mr. Howard Hansen.

MATHEMATICS

Mathematics is the science of numbers. A knowledge of mathematics is vital for learning other sciences. In everyday life simple forms of mathematics play useful roles. Students planning to enter college and various careers find the 2 years of algebra, solid geometry, plane geometry, and trigonometry very important. Business mathematics helps all those who will play a part in the business world after graduation. Also, there are 3 sections of eighth grade mathematics.

BUDDY BOOKER TOPS IN BASKETBALL SCORING

At the rate at which he is going now, William Campbell's Buddy Booker could easily become the fifth player in Group II scholastic basketball history to post a 30-point average for one season.

In 12 games Booker racked up 368 points for a 30.8 point average. In nine games he has hit 30 or more well earned points. At the Campbell County tournament Buddy set a district scoring record of 46 points in one game, and two weeks later, in a game with Amherst, he tied his own record.

This red hot scoring ace is not only the first Group II player to go over the 450-point mark for this season, but was one of the first three in Virginia to pass the 1,000-point career mark this season.

Presently Buddy has the honor of being the top scorer of Group II scorers in the district. An even higher honor is the fact that he now holds the highest average of all scholastic players in Virginia. (Dated 2/9/60)
